### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Louie (36988) on September 15, 2005.

The application has been amended as follows:

Claims 1 and 19, line 8 each, deleted 'passive'.

2. The following is an examiner's statement of reasons for allowance: the remarks were persuasive with exception regarding 'passive' since the term lacked antecedent basis with originally filed specification, entered new matter or at least was indefinite since the language failed to provide the metes and bounds regarding its scope. Essentially, the filed remarks failed to provide adequate explanation how the originally filed specification supports the language and further the assertions of how the prior art were active while claimed invention was passive did not provide sufficient public notice to scope of the language. Also, the award or bonus award (paragraph 38) is independent of direct outcome of a specific game. Finally, printing a receipt including player readable indicia in the form of a tangible medium for the player at a gaming machine for redemption by the player at a location remote from gaming machine, as claimed appears allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
